

North East Ambulance Service NHS Foundation Trust (NEAS) touches the lives of millions of patients every year. Covering 3,200 square miles across the North East region and serving a population of 2.7 million people, we employ more than 2,600 employees.

As well as handling the region's NHS 111 and 999 calls and providing clinical care and transport, we also deliver training for communities and commercial audiences and provide medical support cover at events.

We are an inclusive organisation committed to equality, diversity and inclusion and recognise the contribution that people from all backgrounds can make to our services.

This commitment has led to us being recognised as a Stonewall Diversity Champion with top 100 status and a Disability Confident Employer. We have also signed up to the Strengthened Workforce Race Equality Standard to ensure black, Asian, and minority ethnic people feel welcome and supported in our organisation.
